A spotlight on children waiting for permanent & loving families

**W**ELCOME TO THE Winter 2015 Recruitment Periodical, published by the Michigan Adoption Resource Exchange. Over the next several pages, you will be introduced to some of the youth in Michigan who are waiting for a loving, supportive and permanent family of their own through adoption. The children in this edition also will appear on the 2015 Michigan Heart Gallery display (see below).

The youth in the Winter 2015 periodical are representative of hundreds of other children in the Michigan foster care system who are waiting to become part of a loving family. **To view these children and to learn more information about adoption, please visit our website at [www.mare.org](http://www.mare.org).**

On the MARE website, you will find photos, narratives and video clips of waiting children, as well as a wealth of information about adoption, including links to adoption-related resources.

If you have been thinking about adoption, we invite you to consider bringing an older child or sibling group into your life. If you have questions about adoption or are ready to begin the adoption process, simply call one of the agencies listed in the back of this periodical. MARE is available to answer your adoption-related questions and we will do our best to get you headed in the right direction.

## Grand Opening: Saturday, April 18, 2015

The 2015 Michigan Heart Gallery makes its debut Saturday, April 18 at the Emagine Theater in Royal Oak. Mark your calendars for this special event in which waiting youth become VIPs of the day. For more information, please visit The Michigan Heart Gallery Website, [www.miheart.org](http://www.miheart.org), the Michigan Adoption Resource Exchange website at [www.mare.org](http://www.mare.org) or contact MARE at 800-589-6273.

## Who are the children who wait for adoption?

Adopting a “waiting child” from foster care is often referred to as special needs adoption. This term often makes people think of children with severe mental or physical impairments. In reality, special needs adoption means a child or children who may be difficult to place for adoption for a variety of reasons, including:

- Children school aged and above.
- Children with emotional, mental, learning or physical impairments.
- Children of minority heritage.
- Children who are part of a sibling group that must be placed together.

Many waiting children have had traumatic past experiences that may include physical, sexual or emotional abuse and/or severe neglect. Others may have been born drug or alcohol exposed.

Around 93% of children in Michigan’s foster care system are adopted by the child’s current foster family or a relative (someone with whom the child has an established relationship with). The remaining children available for adoption, like those in this periodical and the MARE website, have no identified family to adopt them. Recruitment of a suitable adoptive family is, therefore, necessary. Over 98% of the children available for adoption without an identified family are over the age of 5. Over 75% of those children are between the ages of 11 and 18.

## Who can adopt a waiting child?

Many people may be surprised to learn that they do not have to be married in order to adopt a child from the foster care system. Potential adoptive parents do not have to own their own home or have a lot of money. They must have enough space in their home and adequate income to support a child. It is important to know that many children waiting for adoption are eligible to receive support subsidies to help adoptive families meet their needs.

## How much does it cost to adopt a child from foster care?

The only cost you should incur for adopting a child from the Michigan foster care system is court filing fees. Some agencies may charge a fee for the Family Assessment (also known as a Home Study). However, once you adopt a child through Michigan’s foster care system, that fee is reimbursed to you. Families must be approved through the Adoptive Family Assessment process before a child can be placed

in their home for adoption. An Adoptive Family Assessment must be completed by a licensed adoption agency (which can be found in the back of this periodical and on the MARE website) and can take an average of six months to a year to complete. The Adoptive Family Assessment will include, but is not limited to, the following components:

- Personal history
- Health statements
- Criminal background check
- Income statement
- Personal references

Once the Adoptive Family Assessment is complete, you may start submitting inquiries to MARE about children you may be interested in adopting. When you inquire about children through the MARE website, your information will be sent, by MARE, to the child’s adoption worker for consideration. Your worker will also be notified that you have inquired about a specific child or children.

**Please visit [www.mare.org](http://www.mare.org) for a complete listing of agencies who license families for foster care, in addition to adoption homestudies, including your local County Department of Human Services office.**

The Michigan Adoption Resource Exchange is proud to offer the Adoption Navigator Program. Adoption Navigators are experienced adoptive parents who offer guidance and personal knowledge to potential adoptive families. The Adoption Navigators have many years of parenting experience, have adopted a number of children, and have knowledge of foster care, infant & older, and domestic & international adoption procedures.

Families who contact MARE for initial adoption information will be given the option to work with a Navigator to help guide them through the process. Having an Adoption Navigator is a free & voluntary service.
