Welcome to the Fall 2019 Recruitment Periodical, published by the Michigan Adoption Resource Exchange (MARE). Over the next several pages, you will be introduced to some of the youth in Michigan who are waiting to have a loving, supportive and permanent family of their own through adoption. The youth featured here represent hundreds of other youth in Michigan's foster care system who are waiting to become part of a loving family through adoption. To learn more about these children and adoption, visit www.mare.org.

On the MARE website, you will find photos, narratives and video clips of youth waiting to be adopted, as well as a wealth of information about adoption, including links to adoption-related resources.

If you have been thinking about adoption, we invite you to consider bringing an older youth or sibling group into your life. If you have questions about adoption or are ready to begin the adoption process, simply call one of the agencies listed in the back of this periodical or contact an adoption navigator at 800-589-6273. MARE is available to answer your adoption-related questions, and we will do our best to get you headed in the right direction.

Mark your calendar for the 2020 Heart Gallery Grand Opening

The ball hasn't dropped on 2019, and you already have a great event to look forward to in 2020, the Michigan Heart Gallery Grand Opening.

This year's gala takes place April 25, 2020 at the Emagine Theater in Royal Oak.

Those are the only details we know for now, but rest assured, we'll give you the other information later via our website and social media.

Meanwhile, mark your calendar!

Who are the children who wait for adoption?

Adopting a child from foster care is often referred to as “special needs” adoption. Common traits of children waiting to be adopted from foster care include:

- Children school aged and above.
- Children with emotional, mental, learning or physical impairments.
- Children of minority backgrounds.
- Children who are part of a sibling group who must be placed together.

Many of these children have had traumatic past experiences that may include physical, sexual or emotional abuse and/or severe neglect. Others may have been born drug or alcohol exposed.

Around 93 percent of children in Michigan’s foster care system are adopted by their current foster family or a relative (someone with whom the child has an established relationship). The remaining children available for adoption, like those in this periodical and on the MARE website, don’t have an identified family to adopt them. Recruitment of a suitable adoptive family is, therefore, necessary.

Typically, more than 98 percent of the children available for adoption without an identified family are over the age of 5, and more than 75 percent of those children are between the ages of 11 and 18.

Who can adopt?

Many people may be surprised to learn that they do not have to be married in order to adopt a child from the foster care system. Potential adoptive parents do not have to own their own home or have a lot of money. They must have enough space in their home and adequate income to support a child. It is important to know that many children waiting for adoption are eligible to receive adoption assistance, which is intended to assist adoptive families in meeting the children’s needs.

How much does it cost to adopt a child from foster care?

The only costs you should incur from adopting a child from Michigan’s foster care system are court filing and birth certificate fees. Some agencies may charge a fee for the Adoptive Family Assessment (also known as a Home Study); however, once you adopt a child through Michigan’s foster care system, that fee is reimbursed to you.

What is the adoption process?

Families must be approved through the Adoptive Family Assessment process before a child can be placed in their home for adoption. An Adoptive Family Assessment must be completed by a licensed adoption agency (which can be found in the back of this periodical and on www.mare.org) and can take an average of six months to complete. The Adoptive Family Assessment includes, but is not limited to, the following components:

- Personal history.
- Health statements.
- Criminal background checks.
- Income statement.
- Personal references.

Once the Adoptive Family Assessment is complete and you’re approved for adoption, you may start submitting inquiries to MARE about children you may be interested in adopting. When you inquire about children through the MARE website, your information will be sent by MARE to the child’s adoption worker for consideration. Your worker will also be notified that you have inquired about a specific child or children.

Did you know?

MARE surpassed 7,000 likes on our Facebook page and we're approaching 8,000. After we boasted of our 7,000 achievement, we received affirmation, at least from one follower, that we're a good resource for adoption information. "You really are a big deal," the follower said. However, we're not such a big deal that we can't improve. If you have ideas or suggestions about how to better deliver information to you, let us know by calling 800-589-6273 or send us an email to mare@judsoncenter.org. We are open to all ideas, and thank you in advance!

"I'm funny, I'm creative, I'm athletic and I'm kind."

MARE is proud to offer the Adoption Navigator Program. Adoption navigators are experienced adoptive parents who offer guidance and personal knowledge to potential adoptive families. The adoption navigators have many years of parenting experience, adopted a number of children, and have knowledge of foster care, infant and older, and domestic and international adoption procedures.

Families who contact MARE for initial adoption information will be given the option to work with a Navigator to help guide them through the process. Having an Adoption Navigator is a free and voluntary service.
